Disclaimer

The economic data presented in this review is sourced from “Trading Economics” unless otherwise stated.

It is common that economic data is initially released as an estimation and then modified at a later date.

Different countries release data at different times. We will continue to update the review as new data becomes available.

The author of the report has not audited the data and provides no guarantee to its accuracy or finality.

Commodity prices fluctuate within a day range. Accordingly, data graphed in this report is an approximation.
